FIVE SYSTEM PORTFOLIO

EndoTechNZ.com

All files

\$39.95 plus GST.

Offer runs until 31st December 2026.

PREMIUM PERFORMANCE.

SINGLE USE.

SMARTER PRICE

MicroPath · ET · PT · RG · C+ Hand

All files now with **FlexION** technology.

PORTFOLIO OVERVIEW

One family. Five Endodontic Systems - New Advanced Metal Technology.

Clinically programed technologies allow EndoTech to build Excellence in solution focused tools with 'next level' advantages in quality and affordability.

TransformS™ MicroPath

Rotary glide path

Compare with Glide Path files and V-Taper systems

TransformS™ ET

Efficient multi-file shaping

Compare with EdgeTaper X7.

TransformS™ PT

Progressive-taper shaping

Compare with ProTaper Gold.

TransformS™ RG

Reciprocating shaping

Compare with WaveOne Gold.

TransformS™ C+ Hand Files

Excellent rigidity for heavy calcifications.

For initial negotiation of narrow or calcified canals.

\$16.95 plus GST.

Premium Performance

Advanced NiTi technology for excellent flexibility, strength and cutting efficiency.

Single Use

Minimizes cross-contamination and ensures consistent, reliable performance.

Smarter Price

High quality at 1/2 – 1/3 the price of leading brands.

COMPLETE NEW ZEALAND ORDERING MATRIX

**Every file.
For every clinical situation.**

MicroPath

Compare with your current glide path files (plus three amazing additional files)

Create the path. Find the anatomy.

Secure a reproducible path before shaping.

MicroPath combines strong tactile feedback with precise path-following through narrow, curved and merging canals. Its controlled flexibility helps establish a smooth glide path while respecting the original anatomy, particularly in MB2 canals and the mesial roots of molars.

Mini Magic 15-05 MB2 file.
