

TransformTM C+

STAINLESS-STEEL HAND FILE

MANUAL SERIES

THE GOLD STANDARD FOR CALCIFIED CANALS.

C+ FILE SYSTEM

Premium Performance. Single Use. Smarter Price.

Size 10 | 21 mm Length

Superior Buckling Resistance

Engineered from specialized heat-tempered stainless steel alloy, delivering exceptional rigidity for initial penetration into challenging, calcified canals without deflection.

Unmatched Tactile Feedback

The unique pyramid-shaped tip design ensures a smooth insertion path while providing the clinician with highly sensitive, responsive tactile awareness during negotiation.

Cutting Efficiency

Features a robust square cross-section that maximizes core mass and maintains sharp, active cutting edges along the entire working length of the instrument.

Smarter Price

High quality at a price that makes sense.

Order Matrix

PACK OF 6 FILES
